Minimum Disclosure Document (Fund Fact Sheet)

SESIKILE CAPITAL
Listed Property Investments

FUND OBJECTIVE

The Sesfikile Boutique Collective Investments Property Fund is a portfolio which aims to deliver both a high income yield as well as capital growth over the medium to long term. Our objective is to deliver total returns (consisting of income and capital) that outperform the FTSE/JSE Listed Property index ("SAPY Index") over a 3 to 5 year investment horizon. The fund is suitable for investors who are looking for a viable property component to a balanced portfolio; or alternatively an investor looking for a growing income stream, but is willing to be exposed to an element of capital volatility.

FUND STRATEGY

This fund aims to outperform the benchmark by investing in listed property companies with sustainable income growth underpinned by strong property fundamentals. In addition to these core holdings, the fund makes use of tactical stock selection to capitalise on short-term market mispricing and corporate action opportunities.

INVESTMENT POLICY

The policy is to invest in JSE listed Real Estate Investment Trusts ("REITs") or listed property companies. The investment manager will also be allowed to invest in financial instruments (derivatives) and cash as allowed by the act from time to time in order to achieve its investment objective. Furthermore, and as legislation permits, the manager shall be permitted to invest in offshore listed property investments on behalf of the Sesfikile BCI Property Fund.

WHY CHOOSE THIS FUND

The fund offers active best of breed management within a sector that offers income and capital growth over time:

- All shares are subject to rigorous, in-depth research; while ultimate portfolio construction adheres to Sesfikile's unique "Four D" approach:
 - Our passion for direct property,
 - Getting stuck in the detail,
 - Understanding the broader drivers of property investment,
 - Taking views on corporate action deals and finding the hidden potential in the sector.
- Through extensive experience in the listed property sector, we believe our team has the ability to identify the key differentiators to performance and ultimately the factors that impact total returns for clients. Importantly, given our commitment to capping the total size of assets under management we will remain nimble enough to execute on investment ideas effectively over the medium to long term.
- Since inception, our investment process has been able to deliver consistent low-risk outperformance of the benchmark on an after fee basis. Although this is no guarantee of future performance, we are confident in our robust investment and risk management process and alignment of interest with clients will consistently steer us towards identifying value added investment opportunities.

FUND MANAGER INFORMATION

The three founding directors, Evan Jankelowitz, Mohamed Kalla and Kundayi Munzara co-manage the Sesfikile BCI Property Fund. Evan previously co-managed the award winning Stanlib Property Income Fund which he left as the best performing fund in the sector. Mohamed was a top rated sell-side analyst at BJM Securities while Kundayi was previously Head of Research at Investec Property. The three managers have a combined investment experience of over 35 years in the SA listed property sector making them one of the most experienced teams in the market.

MARKET REVIEW

A relatively market friendly outcome at the ANC National Elective Conference saw the SA Listed Property Sector ("SAPY") push to ten straight positive months with December delivering a strong +4.2% and finishing the year at a total return of +17.2%. Bonds led the charge in December, closing up +5.6% and ending the year +10.2% higher, while Equities closed off the year with an impressive +21.0% total return. Returns across the board have been solid especially considering the continuation of disruptive political and economic data points (both local and global) that had the ability to seriously upset the applecart.

Given the vast geographical exposure of the SAPY, it has become a lot more difficult to provide a top-down total return expectation of the sector. We have therefore derived our total return expectations through a detailed bottom-up assessment taking into consideration the following 1) bond yield expectations by geography, 2) distribution growth expectations per counter including earnings disappointment risk and 3) yield relative ratings.

The locally focused stocks are showing value, trading around an 8% forward yield, with a wide range from 4.5% to 13.5% while some of the global opportunities, we believe, are offering significantly less value and have taken full advantage of the South African pessimism when it comes to politics, the economy and currency. When building our total return forecast our starting point is a 1 year forward yield of 6.75% that will be supported by 8.5% distribution growth. However, we see the sector de-rating to the bond market on a weighted basis (bottom-up), in large part due to the normalisation of some steamy valuations in the offshore and hybrid space. The net impact is a slightly negative capital return of -0.85% for the sector. Taking all into account, we expect a calendar year total return of 5.9% for the SAPY. Perhaps more than ever, the progression of this return will not be linear and more importantly, stock picking will be key in 2018. In summary the domestic and global political environment has improved and business confidence and investment in SA is likely to rise. However, property always lags the business cycle and fundamentals could get a little worse before they get better – we are feeling a little more confident but not completely out of the woods yet.
