

SESEFIKILE BCI PROPERTY FUND (A)

Minimum Disclosure Document (Fund Factsheet)

FUND OBJECTIVE

The Sesfikile Boutique Collective Investments Property Fund Class A is a portfolio which aims to deliver both a high income yield as well as capital growth over the medium to long term. Our objective is to deliver total returns (consisting of income and capital) that outperform the FTSE/JSE All Property Index (J803) over a 3 to 5 year investment horizon. The fund is suitable for investors who are looking for a viable property component to a balanced portfolio; or alternatively an investor looking for a growing income stream but is willing to be exposed to an element of capital volatility. The portfolio may from time to time invest in listed and unlisted financial instruments.

FUND STRATEGY

This fund aims to outperform the benchmark by investing in listed property companies with sustainable income growth underpinned by strong property fundamentals. In addition to these core holdings, the fund makes use of tactical stock selection to capitalise on short-term market mispricing and corporate action opportunities.

INVESTMENT POLICY

The policy is to invest in JSE listed Real Estate Investment Trusts ("REITs") or listed property companies. The investment manager will also be allowed to invest in financial instruments and cash as allowed by the act from time to time in order to achieve its investment objective. Furthermore, and as legislation permits, the manager shall be permitted to invest in offshore listed property investments on behalf of the Sesfikile BCI Property Fund.

WHY CHOOSE THIS FUND

The fund offers active best of breed management within a sector that offers income and capital growth over time:

- All shares are subject to rigorous, in-depth research;
- While ultimate portfolio construction adheres to Sesfikile's unique "Four D" approach:
 - Our passion for direct property
 - Getting stuck in the detail
 - Understanding the broader drivers of property investment
 - Taking views on corporate action deals and finding the hidden potential in the sector.
- Through extensive experience in the listed property sector, we believe our team has the ability to identify the key differentiators to performance and ultimately the factors that impact total returns for clients. Importantly, given our commitment to capping the total size of assets under management we will remain nimble enough to execute on investment ideas effectively over the medium to long term.
- Since inception, our investment process has been able to deliver consistent low-risk outperformance of the benchmark on an after-fee basis. Although this is no guarantee of future performance, we are confident in our robust investment and risk management process and alignment of interest with clients will consistently steer us towards identifying value added investment opportunities.

FUND MANAGER INFORMATION

Evan Jankelowitz, Mohamed Kalla and Naeem Tilly co-manage the Sesfikile BCI Property Fund. The Sesfikile Investment Team, which consists of five individuals, boasts combined experience of more than 70 years in the listed property sector, making them amongst the most experienced teams in the market. Since inception, the Team has been able to deliver consistent benchmark and peer relative outperformance.

MARKET REVIEW

Listed property achieved back-to-back positive months with a total return of 5.8% for the ALPI and 6.3% for the SAPY. However, the sector lagged equities (+12.33%) as global equities rallied after the US October CPI print was better than expected, falling from 8.2% the month before to 7.7%, boosting the view that inflation has peaked in the US. Meanwhile, SA inflation surprised on the upside (7.6%) on the back of strong food price growth. Domestic bonds were up 3.9%, moving along with global bonds, where yields fell on expectations of a recession and slowdown in interest rate hikes. However, bonds did come under pressure in December due to the adverse findings against the president on the Phala Phala matter by the Section 89 independent Panel. The report found that the president may have violated some sections of the constitution and his oath of office.

Hammerson was the sector's best-performing stock, up 23% for the month. The stock was up 25% against the FTSE/EPRA UK REIT Index by 2% in GBP terms. Without any concrete news, one would assume the stock's performance was driven by speculation around corporate action after Des de Beer, CEO of Resilient and influential director at Lighthouse, a major shareholder of Hammerson, surprisingly stepped off the Hammerson board in October.

Attacq gained 12.2%, while Sirius was up 11.65% after its financial results reflected strong top-line growth and rock-solid fundamentals despite economic difficulties in Germany. Government intervention to limit energy costs has helped SMEs in Germany and the UK. NEPI Rockcastle gained 11.4% after the company upgraded its guidance and settled a litigation claim which would see a portion of the previous provision reversed, enhancing its distributable earnings in 2022. Sector laggards included Capital & Counties (-8.5%) as investors grew concerned about the merger with Shaftesbury – the transaction was delayed to Q1 2023 due to further work being done by the UK CMA.

Despite the solid month's return, the sector is still down for the calendar year and offers decent value. This year has been highly volatile, and we would not be surprised to see opportunist profit-taking after the recent rally and de-risking into the ANC NEC conference in the middle of the month, however, our 12-month expectations still point to mid-teen total returns.

TER AND TRANSACTION COST (INCL. VAT)

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 30 June 2022, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 30 September 2022.
